This year marks the Centennial of Glacier National Park, as well as Wild River Adventure's 25th anniversary! When we acquired our company from Glacier's original river outfitter in 1985, we had a dream of helping people of all ages and ability levels enjoy rafting, fishing and trail rides here at the "Crown Jewel of the Continent."

In the process of realizing this dream, we have grown to be one of the largest and most respected river outfitting companies in Montana. Most importantly, we still provide personalized trips and treat our guests like friends and family. We invite you and yours to join us here at Glacier for an adventure you will long remember.

For more details check out our [website](#) or call us at 1-800-700-7056.

WILDERNESS SAFETY CLASSES OFFERED

As part of our mission to help everyone learn to enjoy fishing, rafting and horseback riding, Wild River Adventures will be offering the following classes:

Wilderness First Aid - June 3rd - 4th

The WFA course provides a great introduction to wilderness medicine for anyone spending time in the outdoors. The course focuses on injury and illness prevention, patient assessment, long-term injury management, improvised splint and litter construction and environmental emergencies.

Approximately half of the course is classroom lecture and half practical scenarios.

Swiftwater Rescue - June 4th - 6th

The swiftwater course is an intensive 24 hour class with one day of classroom instruction followed by two days developing and practicing skills on the river. While the initial emphasis is safety & self rescue, the class offers an in-depth look at reading water, recognizing and avoiding hazards, quick rescue techniques, boat-based rescues, dealing with boat wraps and entrapments, technical rescue systems, and a variety of practical scenarios. We analyze footage of actual river rescues in the classroom and progress from a solid foundation of rescue skills and practice into rescue scenarios on the river.

CPR - June 8th

Gives individuals the knowledge and skills necessary to recognize and provide basic care for breathing, cardiac emergencies, injuries and sudden illnesses, until advanced medical personnel arrive and take over.

Make sure to check our [Facebook page](#) for future updates, events, videos and specials.

There will also be Centennial events throughout the Summer. For a calendar of events and more information check out: <http://www.glaciercentennial.org>
